

# Supply Solutions From Farm to Table

At Cogent Solutions & Supplies, we understand the needs of independent and organic farming operations and are prepared to serve them with the dedicated customer service, supplies and solutions that support the success of your business. We can:

- Consult with you and recommend the right packaging solutions that best meet your shipping needs and budget
- Provide quality food packaging that meets your needs for innovation, sustainability, pricing, and availability
- Offer offsite warehousing options for your packaging products
- Reliably deliver your packaging, even down small country roads
- Bill you upon receipt to support better cash flow for your operation
- Suggest automated bagging solutions that reduce your labor costs
- Provide custom-designed branded items that support your growth and image

SOLUTIONS & SUPPLIES

## All the Packaging You Need—Plus More!

In addition to providing guidance and expertise, we can deliver all the packaging products you require for your farming operation, with a certainty you can rely on. You can also count on us as your single-source supplier for janitorial and sanitation products, safety apparel and other related items. Our broad product selection includes:

- Extensive sustainable and eco-friendly options
- Retail and wholesale bags
- Fruit and vegetable containers
- Liners
- Twist ties
- Stretch film, tapes, straps, void fillers, and other packaging materials
- Corrugated products
- Packaging automation equipment
- Janitorial and sanitation supplies
- Disposable and safety apparel
- And much more!

**Contact us today to learn more about our comprehensive agricultural solutions that can simplify your farming operation, build your brand, and support your profitability.**

### About Cogent Solutions & Supplies

At Cogent, we deliver more than supplies. We help you clearly see opportunities to optimize your operations, enhance your customer experience, and ultimately support your profitability. Whether you need guidance on equipment, advanced inventory management, forecasting support or design solutions, we are ready to help you with clarity and expertise.
